

Now is the winter of your discontent made glorious summer by this son of the Isle of Wight. For your delight and delectation I have prepared a guide to take you from your place of everyday labours to a magical place where treasures may be found. Greatest among these is the coveted plastic lunchbox of Logica. Red and yellow in appearance and containing mighty works of intellect and wit, this object could soon be yours by following the instructions within. But BEWARE, for there may be dragons and false trails and even the odd ticket inspector.

Yes, it is time for another armchair treasure hunt - but the chair may move this time! Somewhere within 10

minutes walk of a tube station, I have concealed some treasure. Your task, Jim, should you decide to accept it, is to find that treasure.

The puzzle has many aspects, including numbered and unnumbered questions; I am looking for answers to everything and will award marks accordingly. Some need general knowledge, some need tube station names and others common sense. Use surnames and significant words only. It is no secret that there are acrostics hidden cunningly that are of no little use.

There is no entry form as such - any piece of paper with legible answers will do. Include more information rather than less, as I will accept an answer different from mine only if you provide some justification.

The marking scheme gives most credit for those parts of the puzzle found to be the most difficult. Marks will be awarded for answers and solutions as well as finding treasure.

Take care when unearthing treasure - it is valuable. Read the instructions inside and put it back carefully, having due regard for later seekers. It is possible that somebody unconnected with the quiz may disturb it - if you are sure that you have reached the right spot and there is nothing there, please try to contact me.

There are five prizes - two of £50, two of £30 and one of £10. There is also a £10 prize for the lowest score over 100. No person / team may win more than one prize. There are also bonus prizes if you can tell me what we didn't do.

Entries must reach me by Friday, 14th January. Answers and results will be sent out as soon as possible after this, but only to people who have entered the competition. If, by any chance, treasure has not been found, I will issue extra clues, but again, only to those who have entered - I suggest you keep a copy of your answers - just in case.

My thanks to Pat for putting up with me, to my son for the starting point, to Alan Smith for the line to follow and to the LSSC for the prizes.

Finally, if anyone has any suggestions for next year's quiz, please let me know. Remember to include your internal or external address with your entry. You could perhaps start by getting the punned station names in the story.

A Merry Christmas to you and one less than
