Kerckhoffs'
Principle

Treasure! Over the years, various fates have befallen treasure. On the following pages are clues to a number of "treasures" which have something in common. Each page also contains clues to help you find another *treasure*. All the information you need is scattered through *these* pages - it's up to you to impose order and find the treasure. So settle down in your armchair, solve the puzzles, and then go out hunting. You might even find real buried treasure!
