

ATH team Hartwell's Heroes

It has become a tradition in our extended family to have a go at the ATH. We look forward to its publication each year.

This year our team comprised an age range of 11yrs to late 70s (I am 74 and, therefore, not the oldest!). We conform to the global aspect of the ATH in that our team members come from England, Wales, USA and Australia. We all enjoyed trying to solve your puzzle but, whilst failing to crack the major codes, we were unable to locate the treasure site. We think we have the best wrong solution!

Thank you for all the work you put into designing such a mind-bending quiz. We older members are now feeling exhausted by our efforts but are happy to have extended our general knowledge.

Best wishes
Geoff
