

First of all we proudly present the very best wrong and totally misleading solution of page 10 acrostichon. Listen closely, fasten your seatbelt and enjoy:

The questions of page 10 have been the most difficult for us – slightly due to our strugglings while thinking in a foreign language. BREXIT, PIZZA and OREST have been safe for us. SPIDER likely (CASE would have been an alternative) and for the white elephant we choosed H (for HANNO), which gave us BSHPO. Question 4 – the ambiguous abbreviation – was an i, because 1 nmi(nautical mile) = 185200000000 nm (nanometer) ---the ambiguous abbreviation, that is out, is i. Question 1 ist a COMET and the bemusing opera-orgy is definitely inspired by YOLANDE (see our solution-entry page 10). All together gives us CBSIHPOY. Because „this is out of order“, your chiffre at the bottom of the page, we anagramed these letters to CY BISHOP. Another fitting clue was „three titles are in the news“. Our interpretation: KING, QUEEN, KNIGHT, mentioned in the BREAKING NEWS on page 10 (chess notation). One title is missing - BISHOP - and this BISHOP is out of order.

And now – please google for CY BISHOP! You will find an author. Of course! And guess what he has written? A novel with the name TREASURE HUNTED.

Too good to be wrong, right? We were stucked in a dead end. I probably don't need to mention that we caesarshifted our personal bishop, his novels and characters for days. And nights.
